-------------------------	--	--	---------------------------------

Depth of scale (m)	Unique scale no./ identifying feature	Location of scale grid No.	Description of location being imaged and survey point number (eg. SP 1 - Stern Anchor or SP7 - Boiler)

A blank coordinate grid for plotting. The horizontal axis (columns) is labeled with numbers 1 through 13. The vertical axis (rows) is labeled with letters A through M. A north arrow is located in the top right corner, pointing upwards and labeled 'N'.

**For photogrammetry of each site, to enable the result to give accurate measurements, you must record the location and depth of a minimum of three scales**

## Video Transect Survey Sheet
